AUTOMATION
SOUTH TENERIFE • 28°02'N

SERVICE CATALOGUE • 2026

Let repetitive work take care of itself.

We connect the tools you already use and build AI assistants so emails, bookings, documents and customers get handled without you having to watch over them — and we monitor everything so it never fails.

From noise, a flow.

We don't sell you yet another piece of software to learn. We connect the one you *already use* so the tasks stealing your hours happen on their own — quietly, without you noticing.

On top of your tools

We work on top of what you already have —your email, your calendar, your WhatsApp, your spreadsheets— without forcing you to change systems or migrate anything.

No stress

Every service is a function with a concrete result: hours recovered, fewer errors, better-served customers. We explain it in plain terms, no tech talk.

THE PROCESS • FOUR STEPS

01

We listen

A 45-minute conversation, no strings attached. You tell us the mess and where your time goes.

02

We connect

We link up the tools you already use. Nothing new to learn, nothing to install from scratch.

03

We automate

We build the flow and leave it working quietly, day and night, in whatever language is needed.

04

We watch over it

Every automation carries a watchdog: if something fails, we know before it affects you, and we fix it.

What we solve

Each block is a group of tasks we leave running on their own. Take what you need today, and it grows with you.

FLAGSHIP SERVICE

Centralised CRM — the portal where you see everything, integrated.

Lead generation & sales

Reputation

Every automation we build connects to a single visual portal: see at a glance what's come in, what's missing, and how your business is doing — without opening six different apps. The dashboard doesn't store the data, it reflects it — so it never depends on a single system, and if something fails, your everyday tools keep working.

01 Documents & admin

PAPERWORK, SORTED

- Automatic classification and filing of invoices, delivery notes and payslips arriving by email.
- Orderly forwarding of all documentation to your accountant or admin agency.
- Extraction of each invoice's data into your spreadsheet or accounting software.
- Deadline reminders: insurance, vehicle inspections, licences, renewals.
- Generating and sending invoices to your customers.
- Automatic alerts for pending payments and unpaid invoices.
- Filing of contracts and signed documents, sorted by customer.

02 Customer service

ANSWERS ITSELF, 24/7

- An assistant that reads and replies to emails using your business's real information.
- A WhatsApp assistant that handles questions day and night.
- Support in several languages: Spanish, English and German.
- Classification and routing of emails to the right person.

03 Bookings, appointments & scheduling

BOOKS ITSELF

- Booking appointments or activities via WhatsApp, no calls needed.
- Automatic reminder before the appointment or departure.
- Confirmation and rescheduling with no one having to step in.
- A single calendar that prevents double bookings.
- Prepayment on booking to cut down on no-shows.
- A waiting list that fills the slots that open up.

04 Lead generation & sales

DON'T LOSE THE ONES WHO SHOW UP

- Immediate reply to every new lead, in under a minute.
- Automatic qualification: separates real customers from window shoppers.
- Follow-up with leads who haven't made up their mind yet.
- Winning back customers who haven't been around in a while.
- Quotes sent automatically.

05 Reputation & after-sales

MORE AND BETTER REVIEWS

- Automatic review requests after the service, in the customer's language.
- Automatic satisfaction surveys.
- Instant alert on a negative review, so you can react in time.

06 Team & operations

COORDINATION WITHOUT CHAOS

- Daily briefing to the team with the day's jobs and departures.
- Shift alerts and task assignments.
- Instant notification of every new booking, lead or payment.
- Monitoring of the automations: if something fails, we let you know.

07 Control & reporting

YOUR NUMBERS, CLEAR

- Periodic report on sales, bookings or customers.
- Automatic summary for management, with no one having to ask for it.
- A dashboard with your business numbers in real time.

08 Communication & marketing

TALK TO YOUR BASE

- Follow-up messages after the service: thank-yous, offers, recommendations.
- Newsletters and campaigns to your customer base, automated.

09 Website & online presence

YOUR CHANNEL, NO COMMISSIONS

- A fast, own website or landing page, published on your domain.
- A website with a booking engine: your direct sales channel, no middlemen.
- Forms connected to your automations.

10 AI phone support

COMING SOON

- A voice assistant that answers the phone, informs and books on your behalf.

Don't see your exact case?

These are the most common flows, but we work on your real tasks. If there's something you repeat every week that eats up your time, it can almost always be automated. Tell us about it.

RECOMMENDED · EXCURSION BUSINESSES

The combo that gives you back the most margin.

Direct multilingual bookings

24/7 support in ES · EN · DE

Departure reminder

Automatic reviews

Every booking that comes through your direct channel instead of an OTA is up to 20% more margin for you. And support in their own language, at any hour, is something no platform gives your customer.

You tell us the mess; we give you back *calm and time*.
